

## **Appendix D**

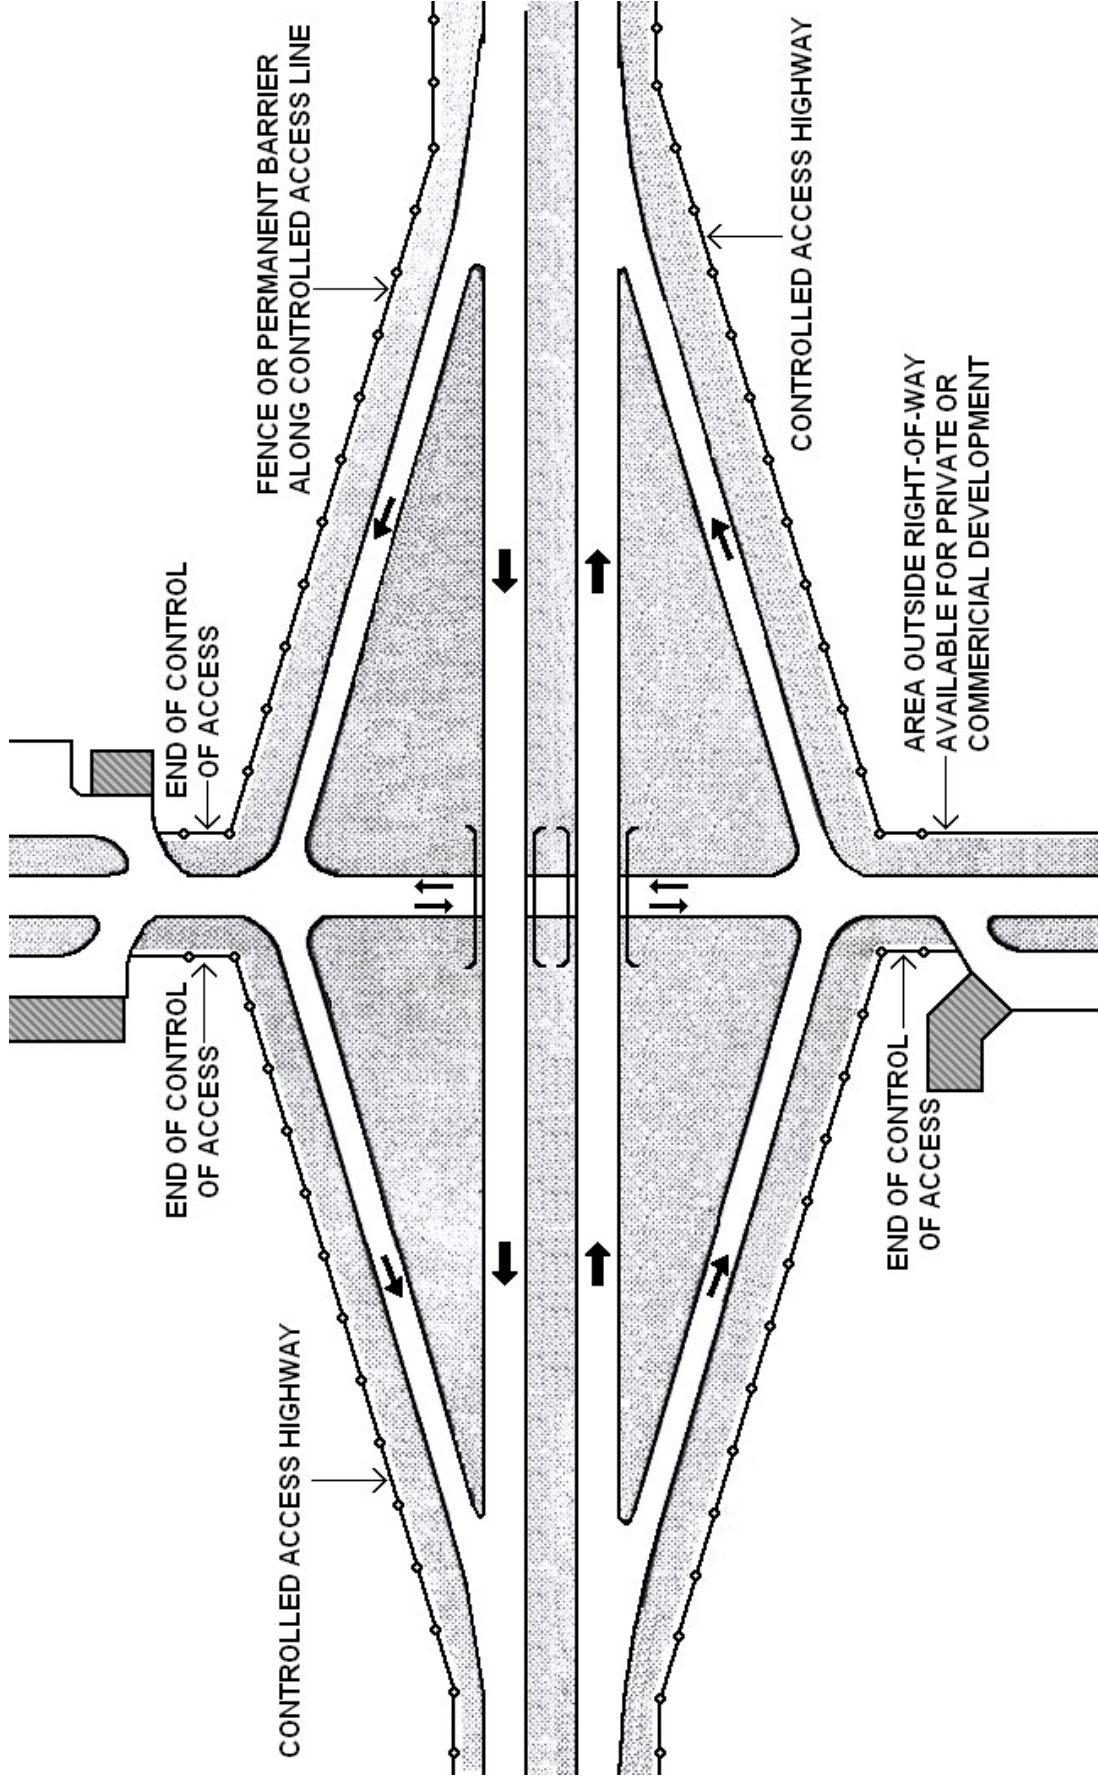

### **FULLY CONTROLLED ACCESS HIGHWAYS**

Drawing Numbers AD-6 and AD-7 illustrate the limits of development with respect to fully controlled access highway right-of-way.

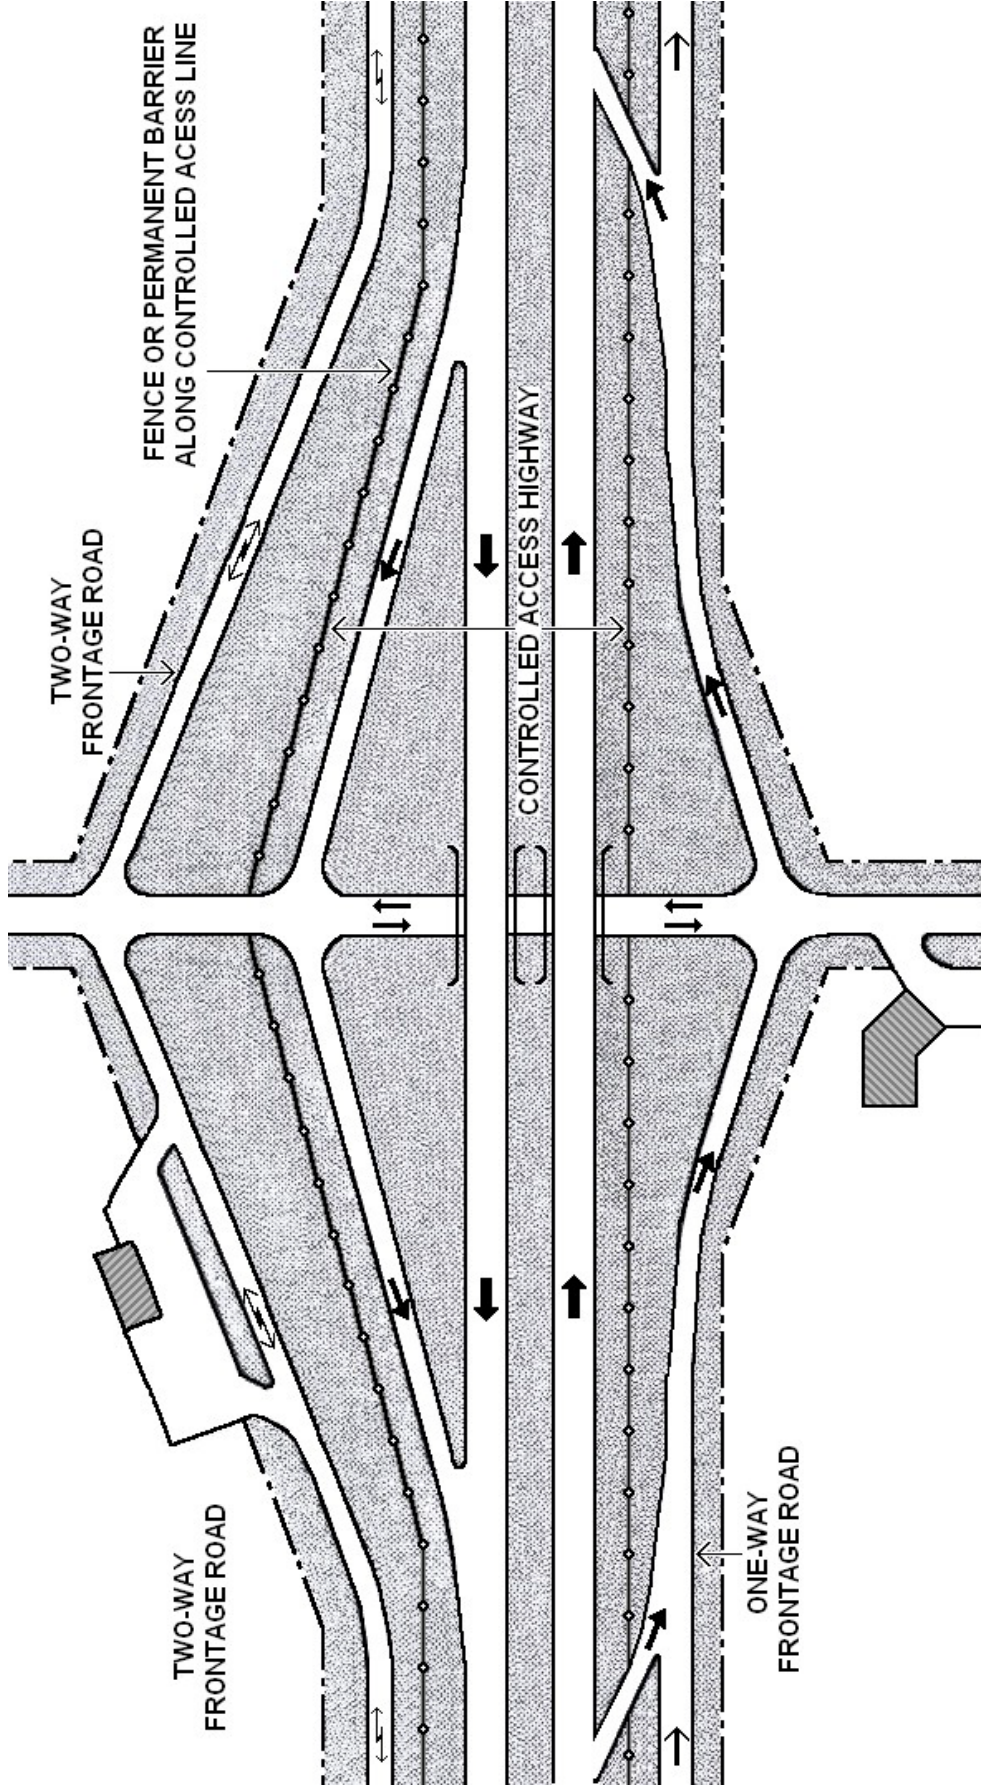

Commercial areas may be developed along the cross roads adjacent to or near an interchange but beyond the limits of access control.

When frontage roads are constructed along a fully controlled access highway, access from adjacent property may be permitted as specified on heretofore.

When frontage roads are not constructed, access to a fully controlled access highway will not be permitted under any circumstances.

**CONTROLLED ACCESS HIGHWAY**  
**NO FRONTAGE ROAD**
